

CONSTRUCTION UPDATE HAMMONASSET BEACH STATE PARK

**CULVERT WORK WILL CLOSE MAIN
PARK ENTRANCE ROAD FOR THE
WEEK OF MAY 5TH – MAY 9TH, 2025**

INFORMATION REGARDING CONSTRUCTION PLAN AND DETOUR ROUTE FOR VEHICLE AND PEDESTRIAN TRAVEL

Construction work will be completed by a DEEP sub-contractor (Precision Trenchless, LLC) and is expected to take approximately 3 – 5 days to complete between Monday, May 5th and Friday, May 9th. The main entrance/exit road will be closed to traffic between the ticket booth and the rotary during this time. The project will consist of lining a 60" culvert pipe to help reinforce the culvert to prepare for a future paving project. The project has received permitting that will allow for de-watering activities on both sides of the road to complete this work and therefore will require a road closure during this time.

Beginning Monday, May 5 at 7:00 a.m., the flow of visitor traffic entering and exiting the park will be re-routed through the campground entrance. Additional information and a map showing the detour route is available by visiting ctparks.com, and searching Hammonasset Beach State Park.

We appreciate your patience as we work to improve the infrastructure within Hammonasset Beach State Park. To see all the projects currently underway, please visit portal.ct.gov/DEEP-Restore
